Pre-closure interest calculation:

Days - Interest Percentage on principal loan amount

- 1-3 days - “0” interest
- 4-10 days - 0.1% Per day
- 11-30 days - 0.115% Per day

Sample calculation :

Principal loan amount : Rs.10000

D is the Date of disbursal considered 1st day

If the borrower wants to close the loan on (D+8days) 9th day the borrower need not pay full interest. The loan can be closed with only 9 days of interest i.e

= Principal loan amount + interest accumulated till 9th day

= $10000 + (10000 \times 6 \times 0.001) = 10000 + 60$

= 10060 rupees only.

Note: For the first 3 days (look up period) there is no interest

Other charges :

Enach registration & Enach bounce charges :

ENach registration charges are determined by the respective banks and may vary across different banks. Similarly, ENach bounce charges are applied by banks if a payment fails, with the amount also varying from bank to bank.
